Home Safety Checklist

Safety risk	No	Yes	If yes, here's what you need to do
Floors			
When you walk through a room, do you have to walk around			Ask somebody to move the furniture so your path is clear
furniture?			
Are there objects on the floor (papers, magazine, shoes, boxes,			Pick up things on the floor and always keep the path clear
etc) that are in your way when you walk through?			
Do you have to walk over or around wires or cords (like lamp,			Coil or tape cords next to the wall; if needed, have an
telephone or extension cords)?			electrician put in another outlet
Do any of your carpets have bumps or curled ends so they do			Have a carpet person remove or fix the carpet so it lays
not lie completely flat?			completely flat
Do you have any small rugs or runners that slide or bunch up			Remove them or use double sided tape or a non-slip backing
when you push them with your foot?			so that they don't slide or bunch up when you walk on them
Stairs			
Is there only one light switch for the stairs (at top or bottom)?			Have an electrician install a light switch at the other end
Do you have trouble seeing the outline of all the steps due to			Have somebody put in a stronger light bulb, or have an
poor lighting?			electrician install another light fixture
Are the handrails only on one side, or are the handrails loose			Fix loose or broken handrails, and make sure there are sturdy
or broken?			handrails on both sides that are as long as the stairs
Are any stairs loose of uneven?			Fix loose or uneven stairs
Is the carpet or covering on the stairs loose, worn or torn?			Make sure carpet or other covering is in good condition and
			firmly attached to the stairs, or remove and attach non-slip
			rubber treads to stairs
Kitchen and Eating Area			
Are the things you use often stored out of your reach (too low			Move items you use frequently to areas in easy reach (waist
or too high)?			to shoulder height)
Is your step stool unsteady?			If you must use a step stool, make sure it is steady, and get
			one with a bar to hold on to; never use a chair as a step
			stool.
Bathroom			

		Put a non-slip rubber mat or self-stick abrasive strips on the floor of the tub or shower
No	Yes	If yes, here's what you need to do
		If you don't have them already, install sturdy grab bars in your tub and/or shower
		If you don't have them already, use a seat riser and/or install a grab bar next to your toilet.
		Install light switches outside the room or just inside the entrance to avoid walking in the dark
		Place a lamp close to your bed where it's easy to reach
		Put in a nightlight so you can see where you're walking; some can come on by themselves after dark.
		Install a front door light and lighting along the path to your house
		Repair the walkway
	No	No Yes

GENERAL SAFETY TIPS

Have an emergency exit plan in case of fire; review it at least yearly

Have emergency numbers listed by your phone

Have working smoke alarms in every level of your house and just outside your bedroom; if you're hard of hearing, consider one that has flashing lights in addition to sound

Have a carbon monoxide (CO) alarm if you use gas heaters to warm your home

Make sure heavy objects (like televisions, bookshelves or large pictures or mirrors) that are in danger of falling over during an earthquake are braced or fixed securely to the wall.

Have an emergency kit with at least 3 days of food, water, medications and other needed supplies in case of a natural disaster; go to http://www.ready.gov/basic-disaster-supplies-kit to learn more about the contents of an emergency kit
