HELPING KIDS, CHANGING LIVES

**UHCCF wants to help reduce
children's medical expenses
for families.**

The UnitedHealthcare Children's Foundation (UHCCF) is a 501(c)(3) charitable organization that provides medical grants to help children gain access to health-related services not covered, or not fully covered, by their families' commercial health insurance plan. Families can receive up to \$5,000 annually per child (\$10,000 lifetime maximum per child), and do not need to have insurance through UnitedHealthcare to be eligible.

Since 2007, UHCCF has awarded more than 32,000 grants valued at over \$65M to children and their families across the United States. And we're just getting started. We're setting our sights on 2030, where we aim to award our 50,000th medical grant to families in need.
